ProjectPAK Net Standard
Installation Instructions

1. Install ProjectPAK Client Software

1. Click the Download button. Once downloaded, open the ProjectPAK Client Net Standard.zip file and double-click ProjectPAK Client Net Standard.exe to begin installation. You'll be prompted for the password that was provided to you. Click Run, if prompted, and follow the instructions on the screen. We recommend keeping the installation defaults.

> **Note:** If you are running Windows 7 or higher, it is highly recommended that you start the installation program by right-clicking on it and choosing the Run As Administrator command.
>
> You must be logged on as the actual user when installing the program. If the actual user of the PC does not have install permissions, you can install via an Administrative logon, however, you'll need to call TradeSoft support to manually set up the ODBC data source configuration.

New Customers Only

2. Set Number of Concurrent Database Users

Before you can use ProjectPAK Net, you need to set the number of concurrent licenses you've purchased. Follow the instructions below to update your concurrent license count. **MAKE SURE NOBODY IS CURRENTLY USING PROJECTPAK OR ANY OTHER TRADESOFT APPLICATION**. Only the TradeSoft server should be running.

> **Note: This only needs to be done once, from any PC that you've installed ProjectPAK upon.**

1. On any PC that you've installed ProjectPAK on, select **Start | Programs | ProjectPAK | Database Users.** This brings up the Concurrent User Utility.

2. Enter the code you were provided into the "License Code" area.

3. Click the 🖧 button on the speedbar. This connects the utility to the shared database and updates the number of concurrent users. When it finishes, the utility displays the number of concurrent users it has set. Make sure this matches the number you've purchased from TradeSoft, Inc.

4. Close the window.

3. Starting ProjectPAK Client Software

Start ProjectPAK by selecting **Start | Programs | ProjectPAK | ProjectPAK**. You should see the ProjectPAK logon window display. Enter SysAdm into the 'User id' field. Enter Ppak into the 'Password' field. If you experience any problems, please call the TradeSoft Technical Support desk.

Refer to Chapter 16, page 4 in the ProjectPAK User's Guide for instructions on logging onto ProjectPAK and setting up security. You can access the ProjectPAK User's Guide either via the ProjectPAK Start menu folder or inside ProjectPAK by going to **Help | User's Guide.**

4. ProjectPAK License Verification

The first time you start ProjectPAK Net, it displays a License Verification dialog box. Verifying a new user's license requires that your computer is connected to the internet. You'll be prompted for your company name, your name, and your customer number that was provided to you.
